

Create your own Birthday Cake

Create your own birthday cake

How fantastic would it be for your child to tell their guests that they have made their own birthday cake.

This 3 hour individual lesson is especially tailored to suit the age and interests of the birthday child.

Your child will learn the skills and create their choice of cake design to take home and be admired by their family and friends

So if they are going to have a horse riding party or are into Fairys or Shrek.... they can make the cake to match
